

**ENJOY THE BENEFITS
OF A POOLED PLAN**

Mayflower Retirement GPS

THE ADVANTAGES OF POOLED-PLAN SOLUTIONS

WHAT IS THE MAYFLOWER RETIREMENT GROUP PLAN SOLUTIONSM (GPS)?

The GPS is a collection of single employer defined contribution plans that, through a pooled arrangement, may share a common plan administrator, named fiduciary, investment menu, plan year, and trustee. Participating employers do not have to share a common association or industry. The GPS is designed to reduce the administrative burden, transfer certain risks, and potentially lower the overall plan cost. It brings together a team of professionals on an employer's behalf so they can focus on what matters most: running their business—not their retirement plan.

HOW THE GPS WORKS

At any time, adopting employers are easily **integrated, enrolled, and tracked** in the Transamerica platform.

It starts with enrollment and continues with personalized communications showing participants how they can improve their retirement readiness and providing general financial education they can use every day.

Transamerica's comprehensive participant engagement program includes:

YOUR RETIREMENT OUTLOOK®

An easy-to-understand forecast generated by the calculation engine provided by Morningstar. Using simple weather icons, it shows participants if their current investment strategy is likely to produce the income they're seeking in retirement — and offers steps to improve their chances of achieving their goals.

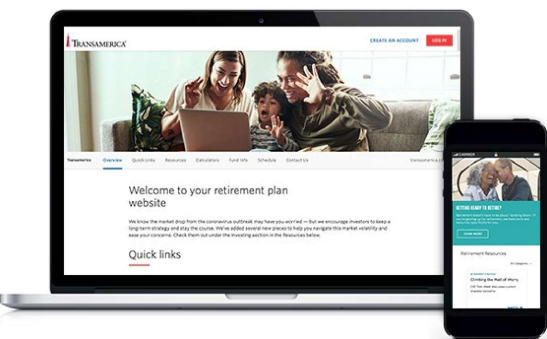

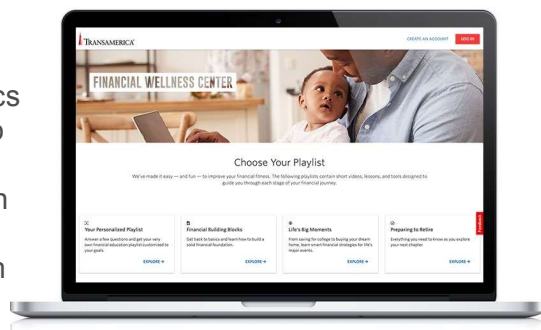

Your Retirement Outlook is featured prominently on the participant website, mobile app, and quarterly statements.

The Group Plan Solution (GPS) is not a multiple employer plan (MEP). Unlike a MEP, certain plan qualification and ERISA requirements are applied at the individual plan level. An employer participating in a GPS retains certain fiduciary responsibilities, including responsibility for retaining and monitoring the 3(16) plan administrator, for determining the reasonableness of its fees, and for periodically reviewing the GPS as a whole.

Before adopting any plan you should carefully consider all of the benefits, risks, and costs associated with a plan. Information regarding retirement plans is general and is not intended as legal or tax advice. Retirement plans are complex, and the federal and state laws or regulations on which they are based vary for each type of plan and are subject to change. In addition, some products, investment vehicles, and services may not be available or appropriate in all workplace retirement plans. Plan sponsors and plan administrators may wish to seek the advice of legal counsel or a tax professional to address their specific situations.

Important: The projections or other information generated by the engine (which produces *Your Retirement Outlook*®) regarding the likelihood of various investment outcomes are hypothetical, do not reflect actual investment results, and are not guarantees of future results. Results derived from the tool may vary with each use and over time.

All cost savings mentioned are estimates and may vary depending on TPA, advisor, or attorney fees.
